

CitizenLocationState

```
graph BT; AtWorkState --|> CitizenLocationState
```

A UML class diagram illustrating inheritance. The class 'AtWorkState' is shown as a gray-shaded box at the bottom, and the class 'CitizenLocationState' is shown as a white box at the top. A solid blue arrow points from the top of 'AtWorkState' to the bottom of 'CitizenLocationState', indicating that 'AtWorkState' inherits from 'CitizenLocationState'.
